Step 5: add voorwaarde - "oplegging van de plicht van 72 uren" and changes date to 71 hours previous then current time. Step 6: Save record. Step 7: after 1 hour and 1 minute a Werkopdracht has to be sent to the Verbalisant filled in Toegang (If record is updated with a Information in tab vertrek, werkopdracht should not be sent)</p> <p>Note: In local TEST and DEV we don't have all 24 scheduled jobs setup. Instead what you can do is create the scheduled job if it isn't there and submit it immediately instead of waiting an hour. In dev you can run scheduled job "POL3800201" and for test run "POL38002T1". Your Vreemdeling still needs to be older than VREEMDELING_TOEGANG_DEADLINE_HOURS hours in order to make the task record though. The scheduled job just checks Vreemdelings.</p> <p>Navigation Generiek - Assistentie - rol/proces - Vreemdeling - tab Toegang</p>	PASSED
